

## MOVING WORLDS II

**Podbielski Contemporary** is pleased to announce its opening in a new location, with a group exhibition: **Moving Worlds II**. The exhibition highlights meaningful works by Shadi Ghadirian, Leonora Hamill, Francesco Jodice, Thomas Jorion, Andréas Lang, Ohad Matalon, Beatrice Minda, Agnese Purgatorio, Hrair Sarkissian, Noga Shtainer, Dubravka Vidovic, WON Seoung Won and Yuval Yairi.

**Moving Worlds II** focus is to propose a dual interpretation of spaces, geopolitical and psychological, in times of fast and challenging changes. On the other hand, these geopolitical spaces become artistic representations by means of a photographic or lens-based practice.

Conceived by artists who either carry the history of these spaces or approach them while playing with the usual journalistic, photo-reporter's gaze, the images seek to "move" the viewer on both a disturbing and emotional level. He is therefore invited to share the artists' line of vision.
